Work Experience

Research Assistant - ICUREUS September 2020 - April 2021
Carleton University, Canada

- Prepared 30 different documents analyzing game based Japanese learning for further research
- Documented ten different Japanese Kanji learning applications describing the creator of the app, what the app does, and how effective the app is, etc
- Collaborated with my professor in creating an augmented reality application facilitating Japanese learning

Business Marketing Intern June 2020 - September 2020
Roofheads, New York

- Created content for various social media platforms, such as Google, Instagram, and Facebook
- Implemented new marketing strategies and campaigns
- Participated in weekly team meetings and contributed to brainstorming and idea generation
- Supported the Chief Executive Officer with any tasks as assigned
- Analyzed current trends for conducting market research

Technical Support Agent I Oct. 2018 - Dec. 2018
Federal Express, Tennessee

- Communicated effectively with clients while thoroughly documenting all calls within the online ticketing system
- Troubleshooted user's issues using available resources
- Facilitated technical issues and resolutions between clients, co-workers, and leadership
- Provided superior customer service

Projects

Forecasting the New Normal Hackathon November 2020
Technation, Canada

- Brainstormed an idea for an app allowing students to work together without any distractions by using your phone to study with a partner and void out distractions & notifications with my team
- Designed the logo of the app and helped wireframe the application using InVision
- Pitched the app to judges and achieved second place achieving \$2,500 with teammates

Projects

- Developed a personal portfolio showcasing different web applications and wireframes
- Programmed a scoreboard with react.js using different components and states to allow players to challenge each other for a crown
